

## HISTORICAL SIGNIFICANCE

Our building which now currently houses Residential Aged and Community Care was formally known as the St. Vincent De Paul's Girls orphanage which operated from 1857 to 1966. During this period 5,319 children resided at the Orphanage. In 1966 the orphanage was decommissioned and the building lay derelict until refurbished in 1993. The refurbishment was a result of a committed group of community spirited people who shared a connection with the City of Port Phillip.
